# UPDATE – Automatic fuel import from EUROWAG cards

We have added a new feature to our application. When refueling with EUROWAG card, it will be automatically transferred into Webdispecink. We will publish this update in January 2019.

Fuel cards must be allocated directly to vehicles, and the same time must be correctly present in system.

Update characteristics:

- 1) Refueling data are carried over with a one-day delay and no cost is present at the time.
- 2) According to transaction ID, the price will be added within 1-2 days
- 3) There is no odometer statement when driver enters it via a terminal input

The screenshot shows the 'Settings > Vehicles > List of vehicles:' page. A red box highlights the 'Fuel cards' section, which includes a table with columns: Number, PIN, Type, State, Valid until. The first row contains the value '789663030264743' in the 'Number' column, which is also highlighted by a red box. Below the table is an 'OK' button.

Number	PIN	Type	State	Valid until
789663030264743		Eurowag	active	1.6.2020

In case you do not like this added feature, you can switch it off in company setting

The 'Other settings:' dialog box shows a checkbox for 'Automaticky nahrávát transakce Eurowag' which is checked and highlighted with a red box. Other settings include 'Max. number of displayed nearby vehicles: 15' and 'Distinction of trip in town/out of town'.

The screenshot shows the 'Log book - 6M1 2843' interface with a table of fuel transactions. The table has columns: Date, Number, Source, Type, Text, Quantity, Unit price, Price, VAT, % VAT, Total, Currency.

Date	Number	Source	Type	Text	Quantity	Unit price	Price	VAT	% VAT	Total	Currency
07.01.2019 06:58:08	789663030264743	karta (Eurowag)	PHM	BA 95N	19,700	22,260	438,520	92,090	21,00	530,610	Kč
08.01.2019 08:15:46	789663030264743	karta (Eurowag)	PHM	BA 95N	35,200	22,620	796,220	167,200	21,00	963,420	Kč
10.01.2019 17:00:29	789663030264743	karta (Eurowag)	PHM	BA 95N	40,860	22,620	924,250	194,100	21,00	1118,350	Kč

14.01.2019 17:13:18	789663030264743	karta (Eurowag)	PHM	BA 95N	29,870	22,620	675,660	141,890	21,00	817,550	Kč

# UPDATE – Adding columns to bulk export

New column Average fuel price excluding VAT has been added in Vehicle statistic export.

Column Average fuel price excluding VAT will appear also in Statistics – Vehicle Summary – Vehicle Statistics

The screenshot shows a web application interface with a navigation bar at the top containing 'Dispatching | Statistics | Tools | Forwarding | Settings | Favourites'. Below the navigation bar, the breadcrumb path 'Statistics > Summaries of vehicles > Exports:' is highlighted with a red box. The main interface displays a table of 'My versions' with columns for 'Name', 'Group', 'type', 'report', 'ran most recently', 'URL', and 'date generated'. A modal window titled 'Webdispatching - Internet Explorer' is open, showing a list of data fields for export. The fields include: 'Average consumption test [l/mh]', 'RB No.', 'Cost of fuel consumed', 'Fuel consumed on duty as shown in registration (price excl. VAT)', 'Drivers', and 'Průměrná cena PHM bez DPH'. The 'Průměrná cena PHM bez DPH' field is highlighted with a red box. A red arrow points from this field to the 'Vehicle statistics export' section in the background interface.

## CONCLUSION

We believe that you have found useful information in this magazine, to make it easier for you to work with Webdispecink application

Thank you for being with us
