NEWS FOR YOU - Changes in travel allowances for 2022

Remember to import the base meal allowance and rates for curtailed meals in 2022.

Rates are ready to be imported directly to Webdispatching.

Settings/Codes/Meal allowances
Settings/Codes/Curtailed meal allowances

MEAL ALLOWANCES - LOCAL:
For each calendar day of working travel, employees are entitled to a subsistence allowance set by Sec. 163 (1) of the Labor Code ("people employed in the business sector").

- **99 Kč**, trvá-li pracovní cesta **5 až 12 hodin**,
- **151 Kč**, trvá-li pracovní cesta **12 až 18 hodin**,
- **237 Kč**, trvá-li pracovní cesta **déle než 18 hodin**.

NEWS FOR YOU - Changes in travel allowances

If a meal is provided to a "person employed in the business sector" during business travel that is in the nature of breakfast, lunch or dinner and the employee did not financially contribute, his or her meal allowance is reduced for each free meal received.

There has also been an increase in the average fuel price for 2022 except for electricity.

- **70 % stravného**, trvá-li pracovní cesta 5 až 12 hodin,
 - **35 % stravného**, trvá-li pracovní cesta 12 až 18 hodin,
 - **25 % stravného**, trvá-li pracovní cesta déle než 18 hodin.
-
- **37,10 Kč** za 1 litr benzínu automobilového **95 oktanů**,
 - **40,50 Kč** za 1 litr benzínu automobilového **98 oktanů**,
 - **36,10 Kč** za 1 litr **motorové nafty**,
 - **4,10 Kč** za 1 kilowatthodinu **elektřiny**.

NEWS FOR YOU – Changes in travel allowances

The Ministry of Finance has updated the base rates it sets by decree for foreign meal allowances in 2022.

They have been increased in nine countries: Algeria, Ethiopia, France, Georgia, Croatia, Liechtenstein, Hungary, Pakistan and Romania.

The foreign allowance rate has been changed for three countries – Djibouti, Democratic Republic of the Congo and Seychelles – and the currency used for them has changed, too.

ALERT - AdBlue

In order to display the AdBlue status, the size of the AdBlue tank has to be set up in journey activity.

Adblue tank sizes are set in the vehicle card. Settings/Vehicle/Vehicle

Setting up the "AdBlue" column in journey activity displays the value there.

The screenshot shows a software interface for vehicle management. At the top, there are navigation tabs: "Pracovní doba", "Tvorba knihy jízd", "Periférie", "Alarmy", "Optimalizace", "Styl jízdy", and "Terminál". The main area is divided into two columns. The left column contains various vehicle details such as "Vozidlo:", "Krátký popis", "Výchozí řidič", "Výchozí řidič 2", "Skupina", "Výchozí účel", "Kommunikační číslo", "Kommunikovat s", "Kommunikační email", "Typ PHM", "Druh vlastnictví", "Druh", "Stanoviště", "VIN", "Tovární značka", "Model vozu", and "Šablona vzhledu". The right column contains technical specifications and settings, including "domov-práce-domov", "obvyklý měsíční nájezd km", "Velikost nádrže", "Velikost CNG nádrže", "Velikost Ad blue nádrže" (highlighted with a red box), "Tolerance tankování PHM", "podezřelý úbytek", "Max. rychlost pro detekci úbytku", "Pořizovací cena bez DPH", "Pořizovací cena DPH", "Pořizovací cena s DPH", "Uplatněná DPH", "Amortizace soukr. km", "Divize", "Středisko", "Osobní číslo", "Číslo objektu", "Číslo TP", and "Datum registrace". Below these settings is a table with columns: "palivo", "palivo cena", "spotřeba (l)", "spotřeba (l/100km)", and "Ad Blue" (highlighted with a red box). The table contains several rows of data, with the first row showing values: 0,00, 0,000, 14,50, 32,51, 59,20. At the bottom right, there are icons for "vložit", "Cestovní příkaz", "tisk a export", and "nastavení" (highlighted with a red box).

BRAND NEW – New API package

After numerous requests, the method of charging for the API interface communicating between Webdispatching and third-party systems, for example Transport 3K, Helios, Prytanis and other third-party company approaches such as for sharing vehicle positions, will be changing on 1 January 2022.

Původní poplatky za API:

- 0 – 2.000 API dotazů za den (celá firma) - ZDARMA
- 2.001 a více dotazů za den (celá firma) – roční poplatek za využívání API rozhraní 25.000 Kč / 1.000 EUR bez DPH.

Pokud jste tedy byť během jen jednoho dne překročili počet API dotazů, pak jste se stali placícím zákazníkem za API na celý rok, a to za výše uvedenou sumu.

Nové poplatky za API pro rok 2022 – nově se mění rozsah a frekvence placení:

- 0 – 60.000 dotazů za daný měsíc (celá firma) – ZDARMA
- 60.000 - 600.000 dotazů – 5.000 Kč / 200 EUR bez DPH za daný měsíc
- 600.000 - 1.200.000 dotazů - 10.000 Kč / 400 EUR bez DPH za daný měsíc

BRAND NEW - New API package

In practice, it means that you will be billed for API usage if you exceed the maximum limit allowed for the entire month and not just for a single day.

But this would only be for one month to let you thereafter optimize your calls so your limit is not exceeded next month, for example.

The number of calls, their frequency and the types of functions are evaluated and you can check them in the menu with Statistics/Other/API call numbers, even going back.

These statistics are updated once a day.

Your API usage level (Free, Basic, Full) will be changed automatically because the calculation is based on how many actual queries you make in a given month and you are accordingly assigned to the correct level.

Therefore, you can be put in a different level each month.

NOTICE:

The number of calls also includes internal communications through Web-dispatching with older mobile app versions such as WD Mobile, WD Fleet (versions older than 1.3.0), WD Driver and Driving Style.

Therefore, everybody is recommended to update these apps to the new version either from Google Play for Android devices or from the App Store for Apple.

BRAND NEW - New API package

Everything above now
requires setup in the new
API package
(Settings / Company /
Packages).

Anybody using API in any
form has to enable this
package.

BRAND NEW - New API package

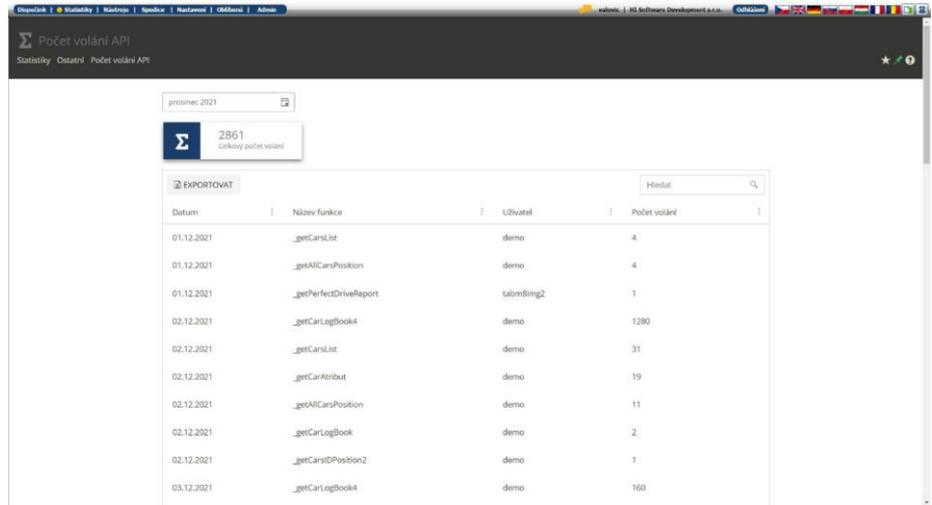

This package has been activated for all companies using API in November 2021.

Please check Statistics/Other/API call numbers (statistics are updated once a day) and if you have any questions, please contact us.

We see the use of APIs after 1 January 2022 as your acceptance this change.

If you have any questions, please contact your sales representative or e-mail us at webdispecink@web-dispecink.cz.

Thanks for being with us.

NOTE - All training is still carried out online

Dear clients,

To protect your health and minimize the spread of the Covid-19 disease, all professional training is still running online.

Details are specified in an email sent to all who signed up before the date of training.

Thank you for your understanding and the best of health to everyone!

Your Webdispatching Team

Client training - Sign up for free training

We are starting another series of training sessions you can join at no charge. Dates have been set until March 2022.

Basic or advanced training is available in selected chapters of the WEBDISPATCHING System.

More information can be found at the ["Free training" link](#) at the WEBDISPATCHING portal.

We look forward to seeing you.

The screenshot shows the website header with the slogan "...protože vše je v pohybu" and contact information: phone number +420 233 555 111 and email webdispečník@eurowag.com. The navigation menu includes "O PRODUKTU", "REFERENZE", "PODPORA", "KONTAKTY", and "VYZKOUŠET" (highlighted with a red circle). The main content area features the WEBDISPEČINK logo (Powered by EUROWAG) and a "REGISTRACE" section. Under "REGISTRACE", there are two training announcements:
