NEWS– Information about connecting to D-8 connector

In the setting of vehicles now you see information about connecting to D-8 connector and you can evaluate data from digital tachograph.

In the column „Installation date“ you can see also information about Vehicle fuel status and Vehicle km status or Vehicle driving hours status.

Settings/Vehicles/Vehicles

Settings -> Vehicles -> List of vehicles

RFH (Registration Number)	Brief description	Default driver	Group	Rights	Brand	Model car	Division/customer's name	Cost center	Object number	personal number	VIN	Standpoint	Installation date	Installation date	Installation date
02000001	Scania	Scania	0000									13250	13.05.2019	13.05.2019	13.05.2019
02000007	Renault	Renault	0000									8187			
02000008	Scania	Scania	0000									13			

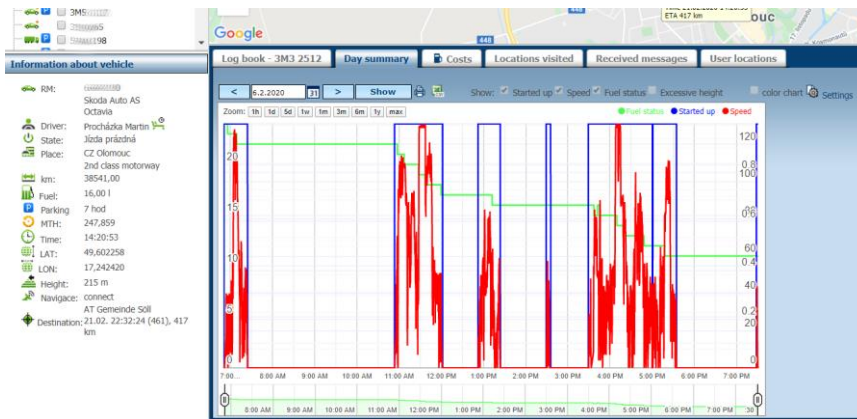

Installation date	Installation date	Installation date	Installation date	Installation date
13250	8187	13	796	13.05.2019

NEWS – More modern charts

We would like to inform you that we change components of show charts.

Charts are now show by more modern technology because of it charts are work in the all internet viewer.

Information you can still show during our charts, for example „Day summary“, where you see chart about using vehicles during the select day.

NOTICE – Checking drivers' activity duty

Please note, that the forwarding agent is responsible for maintaining driving times, safety breaks and rest for its drivers.

In the event of infringements committed by its drivers, the forwarding agent due is to instruct drivers to carry out appropriate checks and regular checks to ensure that driving times, breaks and rest periods are observed.

CONCLUSION

We believe that you have found useful information in this magazine, to make it easier for you to work with Webdispecink application

Thank you for being with us.
