# NEWS – Automatic import of transactions from COM Electric

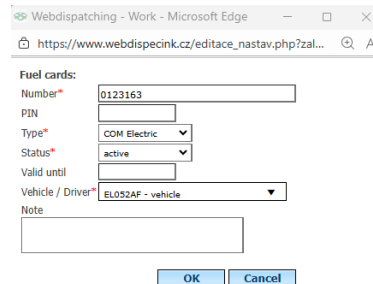

Integration with the COM Electric API has been completed to download charging transactions.

Transactions are uploaded to the vehicle cost on WD. COM Electric provides the cable's ID/number, which is entered into WD as a fuel card, and transactions are then matched to the specific vehicle based on this information.

The Electromobility package must be enabled for this feature to work.

Date	Number	Source	Type	Text	km	mh	Quantity	Unit price	Price	VAT	% VAT	Total	Currency

Note

## NEWS – Import transactions from VISA cards

You can now automatically import transactions from VISA cards.

To use a VISA card, you need to select the "Eurowag" type in the Fuel Card settings.

### Fuel cards:

Number*	<input type="text" value="C001727375403"/>
PIN	<input type="text"/>
Type*	<input type="text" value="Eurowag"/>
Status*	<input type="text" value="active"/>
Valid until	<input type="text"/>
Vehicle / Driver*	<input type="text" value="2S88782 - vehicle"/>
Note	<input type="text"/>

# NEWS – Car Rental – option to edit and approved rental

The car rental **manager** (at the specific branch) now has the **ability to edit a rental**.

- It is possible to edit the vehicle, pickup time, and return time
- If the current time is later than the reservation start date, you cannot edit the pickup time
- If the change conflicts with an existing reservation, a notification about the conflict will be displayed
- If the user has already picked up the keys (the company uses a key holder), the rental cannot be edited
