NEWS – Automatic driver set-up

In **Settings/Company** you can now set the option to automatically create a driver. By checking the checkbox **"Create driver card automatically from backup"** you can activate the function.

Once the driver card backup has been obtained, the driver will be automatically created and at the same time the driver card will be assigned to the driver in Webdispecink.

Drivers:

Drivers form menu: Surname Name ▼

Show driver's personal number in dropdowns

Working time: 8,5 daily

include emergency to hours worked

Send a monthly driver style evaluation via email for all drivers

Create driver card automatically from backup

NEWS – Cost control - add filter

The following modifications have been added to the Statistics

Check of costs (Tools/Fuels):

- Added column "Station Type"
- "Bulk Change" button added
- Added option to sort and filter by Unit Price

Tools - Fuels - Check of costs: 1.8.2024 00:00 31.8.2024 23:59 Show Settings In order Km data are not entered in costs Km data does not fit

Group: all groups including subgroups
 Vehicle: all vehicles
 New license plate: ...

Subdivide records by source
 display only cost in currency different from vehicle

Rearrange records to other vehicle

NEWS – New look for Tire Register

We have improved the graphical display of tires for you. Now it shows a realistic tire placement scheme.

You can select the basic layout 2x2, 6x2, 8x2, 8x8 and you have the possibility to add and remove axles using the buttons (+2 tires, +4 tires, Delete last axle).

You can keep a clear record of your tires in Tools/Vehicle Management/Tire Record.

Tire records:

Insert new tires:

State	<input type="text" value="purchased new"/>
Vehicle	<input type="text" value="2BA7644"/>
Marked tires	<input type="text"/>
Code	<input type="text"/>
Type	<input checked="" type="radio"/> summer <input type="radio"/> winter
Select basic layout	<input checked="" type="radio"/> 2x2 <input type="radio"/> 6x2 <input type="radio"/> 8x2 <input type="radio"/> 8x8
Select the tires you want to insert:	
	<input type="button" value="+ 2 tyres"/> <input type="button" value="+ 4 tyres"/> <input type="button" value="Delete last axle"/>
Date put in use	<input type="text" value="25.7.2024"/> <input type="button" value="31"/>
Purchase price	<input type="text"/>
Tread depth	<input type="text"/> mm
Where tires are stored, comment	<input type="text"/>

NEWS – Route planning in Dispecink – insert transit points

We've improved the Route Planner in Dispecink for you (Dispatching/Map/Tools/Route Planner).

Now dragging a place in the route adds a transit point that is not added to the stops. Stops can still be added directly in the planner.

END

We hope that you have found useful information in the articles in this issue of the magazine that will make working with your fleet even easier.

Thank you for your trust.
