NEWS – Tasks – option to select multiple groups

In tools „Tasks“ the option to select multiple groups at once has been added.

Tools/Vehicle management/Tasks

The screenshot shows the 'Tasks' management interface. At the top, there are navigation tabs: Dispatching, Statistics, Tools, Settings, Favourites, and Support. The main area is titled 'Tools - Vehicle management - Tasks'. It features a date range selector from 8/1/2025 12:00 AM to 8/31/2025 11:59 PM, a 'show' button, and a 'no time limit' checkbox. On the left, there are dropdown menus for 'Vehicle', 'Driver', and 'Semi-trailer', along with a 'Show unassigned tasks' checkbox. The 'Status' dropdown is set to 'Select status'. The 'Group' dropdown is highlighted with a red box and contains the following options: -- Děčín, -- Liberec, -- Hradec Králové, and an 'including subgroups' checkbox. A legend on the right explains the status icons: a green checkmark for 'Reminder on', a blue checkmark for 'Reminder off', a green circle for 'Task completed', a yellow circle for 'Task waiting to be completed', and a red circle for 'Task was not completed in the time entered'. Below the filters is a search bar and a table of tasks.

NEWS – Suspicious drops in fuel consumption

In your personal settings, you can now set up a new scheduled task – Suspicious drops in fuel consumption in fuel consumption.

You will receive a bulk email for all vehicles with suspicious drops in fuel consumption.

Settings/Users/Personal settings

The screenshot displays a web browser window with a URL ending in 'editace_nastav.php?zalozka=kj_email&act=ins'. The page shows a configuration form for a scheduled task. The 'E-mail address' field is filled with 'veronika.adams@eurowag.com'. The 'Email subject' and 'Email body' fields are empty. The 'Change sender', 'Reply to e-mail', and 'Send alerts to mobile' fields are also empty. The 'Send alerts to vehicle' dropdown is set to '...'. The 'Vehicle' section has 'default vehicle' selected, with 'Default vehicle is not set' in red text. Other options include 'all vehicles', 'Vehicle selected', and 'Group of vehicles' (set to 'root (18)'). The 'Report:' dropdown is highlighted with a red box and contains the text 'Suspicious drops in fuel consumption'. The 'Log book for' section has 'last month' selected. The 'Perform task' section has 'daily' selected. The 'Time of start' field is set to '8:00'. The 'Internal description' field is empty. At the bottom, there are 'OK' and 'Cancel' buttons. A 'New task' button is highlighted with a red box in the bottom left corner of the page.

NEWS – Idling of an unknown driver

A new statistics (report) has been created Idling of an unknown driver.

This statistic shows idling of vehicles that cannot be assigned to a specific driver.

The reason why it is not possible to assign a driver is usually because the card has been removed from the tachograph, card reading on the tachograph has been disabled, the card is not entered in the WD, or the vehicle does not even have a default driver.

The way to statistics is **Statistics/ Perfect Drive/Perfect Drive - Idling by an unknown driver.**

Statistics - Perfect Drive - Perfect Drive - Idling by an unknown driver

Driver: Unknown driver License plate: Vehicle location (rollover) Idle running > 25 min August 2023 Other period Show
